- CSS
- Bootstrap
- TailwindCSS
- Git
- Github

CAREER OBJECTIVES

Seeking a position as a Full Stack Junior Software Engineer. I am a strong problem solver who is eager to start, always willing to learn, encourages constructive criticism, and emphasizes excellent communication in a work and personal environment. Previously I was a Physical Therapist Assistant with a history of working with patients to help them with resolving pain and returning to their prior level of function.

PROJECTS

- PT2GO
 - Partnered with a colleague to create an app that allows rehab professionals to make home exercise program for patients.
 - My role was creating backend framework, api calls, persisting redux state, setting up data structure/flow, react-redux middleware, along with JS logics.
- Menu-App
 - First front-end project working in a team of three to create an app that when you don't know what to eat, it'll generate a random dish and drinks. Worked through app planning, dividing tasks, team dynamic.
 - My task was to create multiple fetch API calls within fetch calls and to render response back to HTML along with providing user validation. Technologies used are figma, html, js, bootstrapCSS.

EXPERIENCE

Physical Therapist Assistant

Pam Health PAM Health Rehabilitation Hospital of Humble / Sep 2022 - Current

- Inpatient rehab focusing on postacute care of CVA, SCI, TBI, Parkinson, Amputees. With occasional assistant in outpatient care when needed.
